I agree with Andy with the one extra thought that just occurred to me. I just left a voice mail for the site attorney, Humane Zia, in case she wants to have any input into giving the QAPP to Cabot. Thx,

Deirdre

Bonnie,

It just dawned on me that Rich wants to give a copy of the QAPP to Cabot. The QAPP contains Confidential Business Information (CBI). It also needs to be updated since it alludes to a dedicated team which we no longer have under our START contracts. I suggest we have TECHLAW update the QAPP and provide a revised QAPP and a revision that deletes any CBI. Only the document that deletes CBI should be shared with Cabot.

Karen and Andy,

I talked with Jerry about the QAPP. He sent Rich a message and is waiting to hear back from Rich. I'll pass along any update I receive.

Thanks, Bonnie
